Another nice day for sailing, sandwiched between days with rain and/or excess wind. The forecast was for more breeze than we got, some (all?) of us sailed with light-weight sails. The breeze was around ENE so not quite up and down the pond but it enabled us to pretty much use the whole length and width.

Chris is still getting a few gremlins out of his boat which caused him a couple of non-finishes. I've loaned him a kit\* to renew JST (Futaba?) plugs and sockets which hopefully will solve any connector issues. Graham also suffered a problem which he fixed by the pond but missed 3 races. The fix left the boat/radio settings different from before, which took Graham some trimming to get right again.

Geoff, Rob and myself had no such issues. Several times Geoff sailed off leaving us in his wake or occasionally caught and overtook us (me, at least once). Most races were quite close though with only a few boat lengths between us at the finish. Apart from the boat problems it was a great day's sailing, especially for early February.

Tony M
